Give me the links to your favorite 3 websites and exactly why you like them (they don't have to be in your industry).

List the titles and a short description of 4-7 pages and what information would be important to your clients

Please attach a picture of yourself, your team, your vehicles (if that applies). If you are a brick and mortar sort of business, please attach a picture of your office, and pictures of the local geographical area, points of interest, photos of projects and clients, testimonials... whatever you think would be important to include in your website.
